Helianthus annuus and *Eucalyptus*

SUNFLOWERS AND EUCALYPTUS

Whether growing wild in a field, planted in a garden, or brightening your home as decoration, sunflowers live up to their name. With soft, towering stalks that stretch towards the sky, they beam with happiness and positivity, playfully challenging the sun for attention! Native to Central America and the eastern United States, sunflowers have been valued for their nutritional benefits, resilience and radiant beauty for thousands of years. Ancient civilisations began cultivating them almost 5,000 years ago, and for centuries, these luminous blooms have featured in floral displays and as timeless muses for some of the world's greatest artists. In this LEGO® Botanicals version, they are complemented by silvery eucalyptus sprigs to create a striking contrast both in colour and density.

“We wanted the bouquet to show just how spectacular sunflowers are in each of their varying stages of bloom.”

The LEGO® Botanicals Design Team

FROM A SPROUTING BUD

Sunflowers are cherished gifts for life’s meaningful moments, both big and small. The young bud promises fresh beginnings, a spark of joy and the anticipation of new adventures.

BREAKING THROUGH

Partially opened sunflowers capture the sensation of aspirations taking shape. They emanate a fresh optimism of youth and excitement.

IN FULL BLOOM

A sunflower in full bloom bursts with colour and confidence – a radiant symbol of growth and fulfilment. And when it eventually wilts, it nurtures the soil, sowing the promise of future blooms to come.

EUCALYPTUS

Native to Australia, the fragrant, silvery eucalyptus is more than decorative, it's also a popular part of a koala's diet. When given as a gift, eucalyptus offers wellness, strength and clarity – a perfect companion when embarking on new endeavours.

The LEGO® tub elements we have used on all the sunflowers in this set have previously served several interesting design purposes – like a crow's nest on classic LEGO pirate ships!
