WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

BIO / BIOGRAFÍA / BIOGRAPHIE

■ While it basks in the sun, it can convert the light into energy. As a result, it is more powerful in the summertime.

■ Puede convertir la luz del sol en energía. Por esa razón, es más poderoso en verano.

■ Ce Pokémon est capable de transformer la lumière du soleil en énergie. Il est donc encore plus fort en été.

Caractéristiques LEGO®

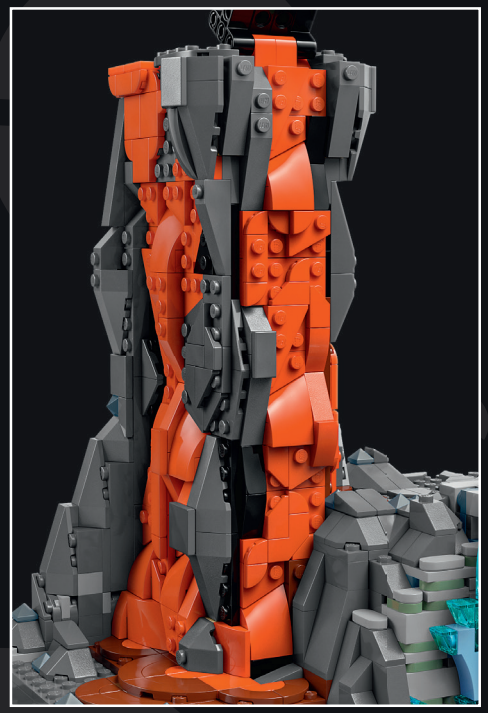

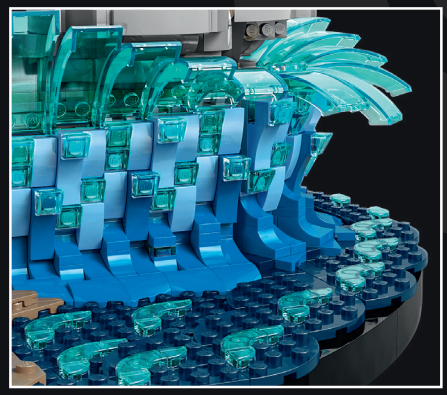

From the LEGO® Pokémon™ Trainers

Venusaur, Charizard and Blastoise are three of THE most sought-after Pokémon in the digital games and the Trading Card Game, and now you can collect and build them together! The final Evolutions of the first partner Pokémon from the Kanto Region are live characters (at least they feel that way to us!) and we've shown them in dynamic poses to reflect their big personalities. (You might discover a few hidden hints of their types inside!) Big personalities deserve a big display. We experimented with different ways to blend their environments and color palettes into one huge model. We've used fun and challenging building techniques to shape the three awesome Pokémon and the platform. Each is showcased in its natural habitat: a lush jungle for Venusaur, a volcanic mountain biome for Charizard and a beachy waterfront setting for Blastoise.

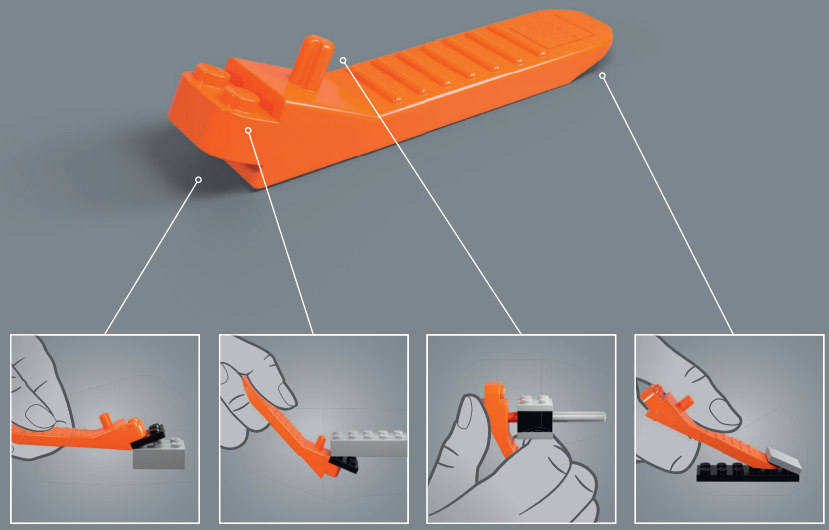

Un mot des Dresseurs LEGO® Pokémon™

Florizarre, Dracaufeu et Tortank sont trois des Pokémon les plus recherchés dans les jeux numériques et le Jeu de Cartes à Collectionner, et maintenant, vous pouvez les collectionner et les construire ensemble! Les évolutions finales des Pokémon iniciales de la région de Kanto sont des personnages vivants (du moins, c'est ce que nous pensons!) et nous les avons montrés dans des poses dynamiques pour refléter leur grande personnalité. (Vous découvrirez peut-être quelques indices cachés sur leurs types à l'intérieur!) Les grandes personnalités méritent une grande exposition. Nous avons expérimenté différentes manières de fusionner leurs environnements et leurs palettes de couleurs en un seul modèle gigantesque. Nous avons utilisé des techniques de construction amusantes et stimulantes pour façonner les trois superbes Pokémon et la plateforme. Chacun est présenté dans son habitat naturel : une jungle luxuriante pour Florizarre, un biome montagneux volcanique pour Dracaufeu et une plage au bord de l'eau pour Tortank.

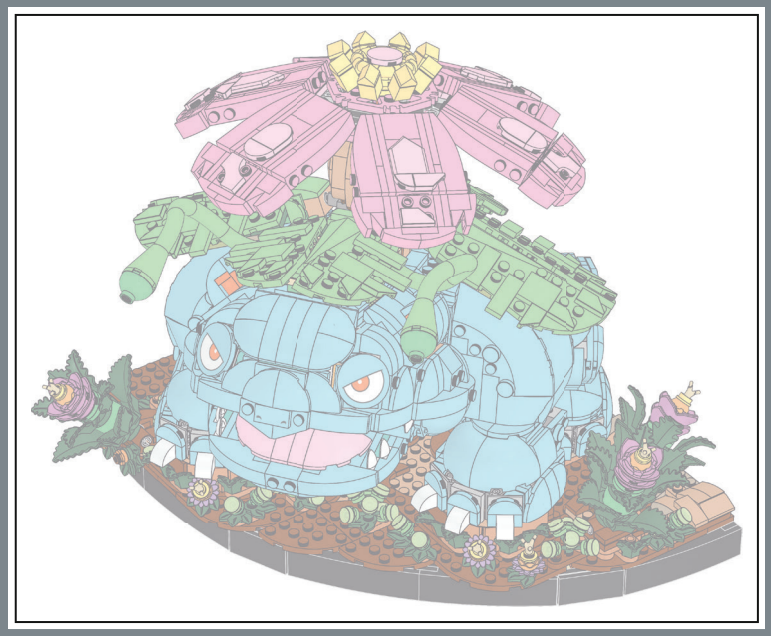

Impresiones de los Entrenadores de LEGO® Pokémon™

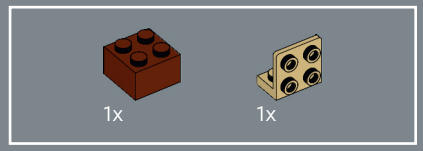

Venusaur, Charizard y Blastoise son tres de los Pokémon más buscados en los juegos digitales y en el Juego de Cartas Coleccionables, ¡y ahora puedes tenerlos y construirlos juntos! Las evoluciones finales Pokémon de départ de la región de Kanto son personajes llenos de vida (¡al menos así nos lo parecen!) y los mostramos en poses dinámicas para reflejar sus grandes personalidades. (¡En su interior podrías encontrar algunas pistas sobre sus tipos!). Y, como las grandes personalidades merecen una exhibición espectacular, experimentamos con diferentes formas de combinar sus entornos y paletas de colores en un único modelo de gran tamaño. Usamos técnicas de construcción tan divertidas como desafiantes para dar forma a los tres impresionantes Pokémon y a la plataforma. Cada uno se muestra en su hábitat natural: una exuberante selva para Venusaur, un bioma volcánico y montañoso para Charizard, y un entorno acuático para Blastoise.
