WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

concepteur amateur
Conoce al fan diseñador

● Fan designer Maximilian Lambrecht (LEGO® Ideas name HisBrickMaterials) is a Visual Effects Artist from Germany – with a passion for nature:

"I try to spend my free time away from anything display-shaped; either at the piano, painting, drawing or playing board games. But nature is my single most surprising, spectacular and grounding source of inspiration! I particularly love otters, and for this model, I watched documentaries and went to the local zoo, drawing outlines and sketches for the LEGO version. I wanted to capture the otter's playful essence, and I looked forward to engaging with other fans about building tricks – and making 'otterly' bad puns! The otter is shown in its natural habitat, with an imaginary sense of depth. I added rock elements, claw accessories, modified tiles, slopes and various parts of vegetation to the model, and adjusted the brick colors for a harmonious appearance. Still, I couldn't have dreamt of this outcome – it's an unreal experience that I will cherish for a looong time."

MAXIMILIAN'S ORIGINAL SUBMISSION:

The sea otter looks almost lifelike with its adorable facial expression and pose. Cleverly built-in details and colors beneath the transparent tile surface add depth to its environment.

LA SOUMISSION ORIGINALE DE MAXIMILIAN :

La loutre de mer semble presque réelle avec son expression faciale et sa pose adorables. Les détails et les couleurs habilement intégrés sous la surface transparente des tuiles ajoutent de la profondeur à son environnement.

PROPUESTA ORIGINAL DE MAXIMILIAN:

la expresión y la pose de la nutria de mar la hacen parecer casi de verdad. Una serie de ingeniosos detalles y los colores estratégicamente colocados debajo de las cubiertas transparentes aportan profundidad al entorno.

● Le concepteur amateur Maximilian Lambrecht (pseudonyme LEGO® Ideas : HisBrickMaterials) est un artiste allemand spécialisé dans les effets visuels et passionné par la nature :

« J'essaie de passer mon temps libre loin de tout ce qui s'apparente à un écran, que ce soit en jouant du piano, en peignant, en dessinant ou en jouant à des jeux de société. Mais la nature est ma source d'inspiration la plus surprenante, spectaculaire et apaisante! J'aime particulièrement les loutres, et pour ce modèle, j'ai regardé des documentaires et je me suis rendu au zoo local, où j'ai dessiné des croquis et des esquisses pour la version LEGO. Je voulais capturer le caractère espiègle de la loutre, et j'avais hâte de discuter avec d'autres amateurs des astuces de construction – et de faire des jeux de mots "absolument" mauvais! La loutre est représentée dans son habitat naturel, avec une impression de profondeur imaginaire. J'ai ajouté des éléments rocheux, des accessoires pour les pattes, des tuiles modifiées, des pentes et diverses parties de végétation au modèle, et j'ai ajusté les couleurs des briques pour obtenir un aspect harmonieux. Mais je n'aurais jamais pu imaginer un tel résultat – c'est une expérience surréaliste que je chérirai pendant très longtemps. »

● El fan diseñador Maximilian Lambrecht (conocido en LEGO® Ideas como HisBrickMaterials) es un artista de efectos visuales de Alemania con una gran pasión por la naturaleza:

“Trato de pasar mi tiempo libre alejado de todo lo que parezca una exhibición, ya sea frente al piano, pintando, dibujando o jugando juegos de mesa. No obstante, la naturaleza es mi principal fuente de inspiración. ¡Es lo más sorprendente, espectacular y tranquilizador que existe! Me fascinan las nutrias y, para recrearlas en versión LEGO, vi algunos documentales y visité el zoológico local, lo que me permitió hacer los dibujos preliminares. Quería capturar la esencia juguetona de estas criaturas, ¡y estoy impaciente por colaborar con otros fans para encontrar la forma de recrear algunos de sus trucos más conocidos! El modelo muestra a la nutria en su hábitat natural con una sensación imaginaria de profundidad. Le agregué elementos que representan rocas, garras, cubiertas modificadas, bricks con pendiente y vegetación, y ajusté los colores para armonizar su apariencia en general. Aun así, no podría haber soñado con el resultado: es una increíble experiencia que atesoraré por mucho mucho tiempo.”

From the LEGO® Ideas Design Team

● Maximilian's playful otter immediately resonated with us. Working with him, we decided to enhance its realistic appearance while keeping the cute factor, of course, so we included a sleeping otter pup that lies on its mother's belly. Otters are quite long, but the floating pose was perfect for the model, with the otter's legs curled upwards. Sea otters' colors vary, depending on species, region and age. The wet body fur is often a very dark brown and the head a bit lighter, so we have abstracted the colors to enhance the building experience. We wanted to be able to move its arms, allowing it to press its hands against its face (a very common otter pose) and reach forward to either place a hand on its pup or the clam. This proved to be a fun challenge. The elbow had to look 'submerged' or like it was in the water. We created a cutout on the water surface that closely matched the shape of the lower arm, and to have a full range of motion, we included two points of articulation below the water surface.

Un mot de l'équipe de conception LEGO® Ideas

● La loutre espiègle de Maximilian nous a immédiatement charmés. En collaboration avec lui, nous avons décidé d'améliorer l'aspect réaliste du modèle tout en conservant son côté mignon. Nous avons donc ajouté un bébé loutre endormi couché sur le ventre de sa mère. Les loutres sont assez longues, mais la pose flottante était parfaite pour le modèle, avec les pattes de la loutre recroquevillées vers le haut. La couleur des loutres varie en fonction de l'espèce, de la région et de l'âge. Le pelage mouillé est souvent d'un brun très foncé et la tête est légèrement plus claire. Nous avons donc simplifié les couleurs afin d'améliorer l'expérience de construction. Nous voulions que ses bras soient mobiles afin qu'elle puisse presser ses mains contre son visage (une pose très courante chez les loutres) et se pencher en avant pour poser une main sur son petit ou sur la palourde. Cela s'est avéré être un défi amusant. Le coude devait donner l'impression d'être « submergé » ou dans l'eau. Nous avons créé une découpe à la surface de l'eau qui épousait parfaitement la forme de l'avant-bras, et pour obtenir une amplitude de mouvement complète, nous avons ajouté deux points d'articulation sous la surface de l'eau.

Impresiones del equipo de diseño de LEGO® Ideas

● La juguetona nutria de Maximilian nos cautivó al instante. En colaboración con él, decidimos realzar el realismo del modelo sin perder la ternura que irradia y, por eso, agregamos un cachorro durmiendo plácidamente sobre el vientre de su madre. Las nutrias tienen un cuerpo muy largo y, si bien eso podría parecer un problema, la postura a flote con las patitas arqueadas hacia arriba resultó ideal para el modelo. Los colores de las nutrias de mar varían según la especie, la región y la edad. Para mejorar aún más la experiencia de construcción, reprodujimos la variación de tonos del pelaje, que suele tener un color café oscuro en el cuerpo y un poco más claro en la cabeza. También queríamos que tuviera brazos móviles que le permitieran tocarse la cara (una pose muy común entre las nutrias) y poner las manitas sobre el cachorro o la almeja. Eso se convirtió en un divertido desafío. Además, era necesario que el codo pareciera estar sumergido. Creamos un recorte en la superficie del agua con una forma muy similar a la de la parte inferior del brazo, con dos puntos de articulación para ampliar el rango de movimiento.

MOVING ARMS

Oh, to be a sea otter pup! If this one swims off to play elsewhere, you can gently move mom's arms and place her favorite snack here instead.

BRAS MOBILES

Oh, quel bonheur d'être un bébé loutre de mer! Si le petit nage pour aller jouer ailleurs, vous pouvez doucement bouger les bras de la maman et placer sa friandise préférée à la place du bébé.

BRAZOS MÓVILES

¡Qué gran vida tienen los cachorros de nutria de mar! Si este nada a otro lugar para jugar un poco, puedes colocar suavemente los brazos de su mamá sobre su bocadillo favorito.

CURLED UP LEGS

Both the legs and toes can be articulated to mimic the sea otter's different playful poses.

JAMBES RECROQUEVILLÉES

Les pattes et les orteils peuvent être articulés pour imiter les différentes poses ludiques de la loutre de mer.

PATITAS ARQUEADAS

Tanto las patas como los dedos de estas pueden colocarse en distintas poses divertidas como las de las nutrias de mar de verdad.

DEPTH IN DETAILS

We added extra depth to the water parts, with layered blue and green elements and an outline layer below the water layer, to create the illusion of the full size of the otter.

DÉTAILS EN PROFONDEUR

Nous avons ajouté de la profondeur aux parties aquatiques, avec des éléments bleus et verts superposés et une couche de contour sous la couche d'eau, afin de créer l'illusion de la taille réelle de la loutre.

DETALLES EN LO PROFUNDO

Dimos más profundidad a las partes de agua formando capas de elementos azules y verdes y delineando la silueta de la nutria en el fondo para crear la ilusión de estar contemplando el cuerpo completo del animalito.

The old man of the sea

La flâneuse des flots

La anciana del mar

● With those big, dark eyes and plushie looks, sea otters seem like you could just hug and smooch them! Add their clever behavior to the mix, and the cuteness factor goes through the roof. They float on their backs, nap in kelp and even hold hands so they don't drift apart (aaaw!). Using rocks – some even stash their favorite one in a handy little pouch – they crack open clams, mussels or crabs. Snacking off their bellies, they look like they're living their best lives on a permanent poolside vacation. Since they don't have blubber to keep warm, sea otters rely on their incredibly dense fur – up to a million hairs per square inch. With all that fluff, staying clean and well-groomed is a full-time job. They're super social, raise their pups in the water and snuggle them closely while teaching them how to swim, play and thrive. If you're lucky enough to spot one in the wild, just remember, the "old man of the sea" values its personal space, so make sure you enjoy from a safe distance.

● Avec leurs grands yeux sombres et leur apparence pelucheuse, les loutres de mer donnent envie de les serrer dans ses bras et de les câliner! Ajoutez à cela leur comportement intelligent, et leur capital de mignonnerie atteint des sommets. Elles flottent sur le dos, font la sieste dans les algues et se tiennent même la main pour ne pas dériver (adorable!). À l'aide de pierres – certaines cachent même leur pierre préférée dans une petite pochette pratique – elles cassent des palourdes, des moules ou des crabes. En grignotant à même leur ventre, elles semblent vivre une vie de rêve en vacances permanentes au bord de la piscine. Comme elles n'ont pas de graisse pour se maintenir au chaud, les loutres de mer comptent sur leur fourrure incroyablement dense – jusqu'à un million de poils par pouce carré. Avec toute cette fourrure, la garder propre et bien soignée est un travail à plein temps. Elles sont très sociables, élèvent leurs petits dans l'eau et les câlinent tout en leur apprenant à nager, à jouer et à s'épanouir. Si vous avez la chance d'en apercevoir une dans la nature, n'oubliez pas que la « flâneuse des flots » tient à son espace personnel, alors assurez-vous de l'admirer à une distance raisonnable.

● ¡Los grandes ojos oscuros y el esponjoso pelaje de las nutrias de mar te hacen querer abrazarlas al instante! Si a eso le agregas grandes dosis de inteligencia y expresividad en su comportamiento, ¡la ternura aumenta hasta el cielo! Duermen sobre las algas o flotando boca arriba y, cuando lo hacen juntas, a veces se toman de las manos para que las corrientes no las separen (¡qué lindura!). Usan rocas (que incluso guardan debajo de los pliegues de su piel cuando una les gusta particularmente) para abrir almejas, mejillones o cangrejos. Suele vérselas flotando con algún bocadillo sobre el vientre y comiéndolo sin prisa, como si disfrutaran de unas vacaciones permanentes junto al agua. Como no tienen grasa corporal en grandes cantidades, las nutrias de mar dependen de su denso pelaje (con hasta 150.000 pelos por centímetro cuadrado de piel) para conservar el calor de su cuerpo. No obstante, mantenerlo limpio es un trabajo de tiempo completo. También son muy sociables y crían a sus cachorros en el agua, abrazándolos frecuentemente mientras les enseñan a nadar, jugar y sobrevivir. Si tienes la suerte de encontrarte con una en la naturaleza, recuerda que la *anciana del mar* valora su espacio personal, así que asegúrate de contemplarla desde una distancia segura.

Along the shallow, coastal waters of Alaska and the North Pacific, sea otters are typically found on rocky shores, barrier reefs, kelp forests and tidelands.

Le long des eaux côtières peu profondes de l'Alaska et du Pacifique Nord, les loutres de mer vivent généralement sur les côtes rocheuses, les récifs-barrières, les forêts de varech et les zones intertidales.

Es común encontrar nutrias de mar en las playas rocosas, barreras de coral, bosques de algas y marismas de las aguas costeras poco profundas de Alaska y el Pacífico norte.

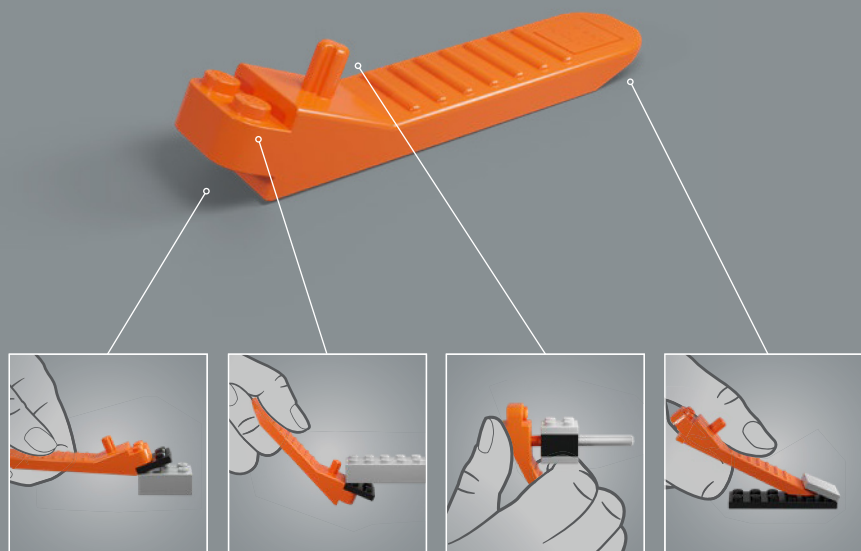

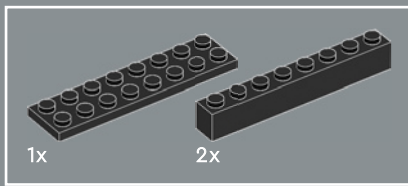

They take excellent care of their 'tools' (rocks) – and each other. We hope you'll love taking care of this one!

Elles prennent grand soin de leurs « outils » (les pierres) – et les unes des autres. Nous espérons que vous adorerez prendre soin de celle-ci!

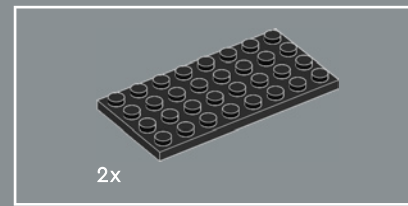

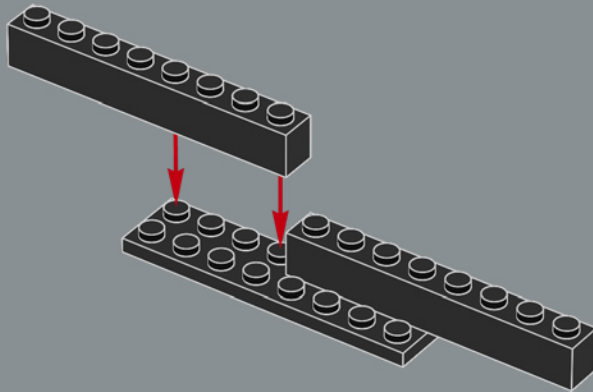

Son expertas en cuidar de sus herramientas (las rocas) y de otros de su especie. ¡Esperamos que a ti te encante cuidar de este espécimen!
