WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

ANYTHING BUT A PILE OF JUNK!

We're pretty sure we weren't the only *Star Wars* fans who let out a gasp of excitement when Peli Motto revealed the Naboo N-1 Starfighter to The Mandalorian in *The Book of Boba Fett*. After all, our passion is to build (and rebuild) starships. And we couldn't wait to see what tricks the renowned Mos Eisley mechanical genius/parts peddler had up her sleeve to replace the notorious *Razor Crest*. Of course, we had to make a LEGO® *Star Wars*™ version – and it's now ready to leave the ~~garage~~ box. A large-scale build-to-display model, it joins our extensive Ultimate Collector Series – guaranteed scurrer-free and will fly under almost any radar.

Enjoy building!
The LEGO® *Star Wars*™ Team

TOUT SAUF UN TAS DE FERRAILLE!

Nous sommes sûrs de ne pas être les seuls amateurs de *Star Wars* à avoir poussé un soupir d'excitation lorsque Peli Motto a révélé le chasseur Naboo N-1 au Mandalorien dans *Le Livre de Boba Fett*. Après tout, notre passion est de construire (et de reconstruire) des vaisseaux spatiaux. Et nous étions impatients de voir quels trucs la célèbre mécanicienne de génie et vendeuse de pièces détachées de Mos Eisley avait dans sa manche pour remplacer le fameux *Razor Crest*. Bien sûr, nous devons faire une version LEGO® *Star Wars*™ – et elle est maintenant prête à quitter le garage la boîte. Ce modèle à grande échelle, conçu pour être exposé, vient s'ajouter à notre vaste Série de collection suprême, qui garantit l'absence d'éraflures et qui passera inaperçue.

Bonne construction!
L'équipe LEGO® *Star Wars*™

¡TODO MENOS UN PEDAZO DE BASURA!

Estamos convencidos de que no fuimos los únicos fans de *Star Wars* que soltamos un grito de emoción cuando Peli Motto le mostró el caza estelar Naboo N-1 al Mandaloriano en *El libro de Boba Fett*. Después de todo, nuestra pasión es construir (y reconstruir) naves espaciales. Y estábamos impacientes por ver qué trucos tenía bajo la manga la renombrada genio mecánica y vendedora de refacciones para naves de Mos Eisley para reemplazar la famosa *Razor Crest*. Naturalmente, teníamos que hacer una versión LEGO® *Star Wars*™ que ahora está lista para abandonar el taller de su caja. Se trata de un modelo de exhibición a gran escala que se une a nuestra extensa colección Ultimate Collector Series, con garantía de estar libre de *scurriers* y volar debajo de casi cualquier radar.

¡Que disfrutes construyendo!
El equipo de diseño de LEGO® *Star Wars*™

A PRE-EMPIRE CLASSIC

When you build a starship that performs well, it doesn't have to be at the expense of a beautiful exterior. The Naboo N-1 starfighter is one of the most striking designs by the Theed Palace Space Vessel Engineering Corps. Its polished chromium nose, sculpted lines and curves, and custom-tuned twin-ion engines are classic examples of a Naboo tradition that fuses elegance with high performance. Originally commissioned by the Royal Naboo Security Forces, the N-1 is a sleek single-seater with a bite: its twin laser cannons and proton torpedoes are backed by scorching speed and precision. The signature 'rat-tail' finials serve as heat sinks for optimal engine cooling, which in turn helps reduce pollution.

UN CLASSIQUE D'AVANT L'EMPIRE

Lorsque vous construisez un vaisseau spatial performant, cela ne doit pas se faire au détriment d'un bel extérieur. Le chasseur Naboo N-1 est l'un des modèles les plus remarquables conçus par le Corps d'ingénierie des vaisseaux spatiaux du Palais Theed. Son nez en chrome poli, ses lignes et ses courbes sculptées et ses moteurs bioniques réglés sur mesure sont des exemples classiques de la tradition Naboo qui allie élégance et hautes performances. Commandé à l'origine par les forces de sécurité royales de Naboo, le N-1 est un monoplace élégant qui ne manque pas de mordant : ses deux canons laser et ses torpilles à protons s'accompagnent d'une vitesse et d'une précision redoutables. Les embouts « queue de rat » caractéristiques servent de puits de chaleur pour un refroidissement optimal du moteur, ce qui contribue à réduire la pollution.

UN CLÁSICO PREIMPERIAL

Cuando construyes una nave espacial, no tienes que sacrificar un exterior vistoso para que funcione bien. El caza estelar Naboo N-1 es uno de los diseños más llamativos del Cuerpo de Ingenieros de Naves Estelares del Palacio de Theed. Su nariz cromada con acabado pulido, sus líneas y curvas esculpidas, y sus motores iónicos dobles adaptados son ejemplos clásicos de la tradición de Naboo, que fusiona la elegancia con el alto desempeño. Encargado originalmente por las Fuerzas de Seguridad Reales de Naboo, el N-1 es un elegante monoplace con capacidad real de noquear, sumando una velocidad vertiginosa y precisión quirúrgica a la potencia de sus cañones láser gemelos y torpedos de protones. Los característicos tapones de tobera sirven como disipadores de calor para enfriar los motores con eficiencia, lo que, a su vez, reduce la contaminación.

THE FASTEST SHIP IN THE OUTER RIM

Decades after its original heyday with Anakin Skywalker at the helm, the iconic starship finds its way to a new pilot. After losing the *Razor Crest*, the Mandalorian Din Djarin is on the hunt for its worthy successor. He first sets his eyes on the battered remains of the N-1 in Peli Motto's garage, although first impressions are not exactly favorable. From there, Motto's resourceful Jawa contractors scrounge the finest scrap the desert world can offer (no questions asked), and Motto's vision begins to take shape. Outfitted with a turbonic venturi power assimilator, cryogenic density booster and custom induction intake, the ship boasts blistering thrust, hyperspace capability without a docking ring and snappy controls and maneuvering tuned for dogfights.

"Dank farrik, she's fast."

– The Mandalorian

© & ™ Lucasfilm Ltd.

LE VAISSEAU LE PLUS RAPIDE DE LA BORDURE EXTÉRIÈRE

Des décennies après son apogée avec Anakin Skywalker aux commandes, le vaisseau emblématique est confié à un nouveau pilote. Après avoir perdu le *Razor Crest*, le mandalorien Din Djarin est à la recherche d'un digne successeur. Il pose d'abord les yeux sur les restes abîmés du N-1 dans le garage de Peli Motto, mais sa première impression n'est pas vraiment favorable. À partir de là, les entrepreneurs Jawa de Motto, pleins de ressources, récupèrent les meilleures pièces que le monde désertique peut offrir (sans poser de questions), et la vision de Motto commence à prendre forme. Équipé d'un assimilateur de puissance à venturi turbonique, d'un amplificateur de densité cryogénique et d'un système d'admission personnalisé, le vaisseau offre une poussée fulgurante, une capacité hyperspatiale sans anneau d'amarrage, des commandes rapides et des manœuvres adaptées aux combats de chiens.

« Dank farrik, elle est rapide. »

– Le Mandalorien.

LA NAVE MÁS RÁPIDA DEL BORDE EXTERIOR

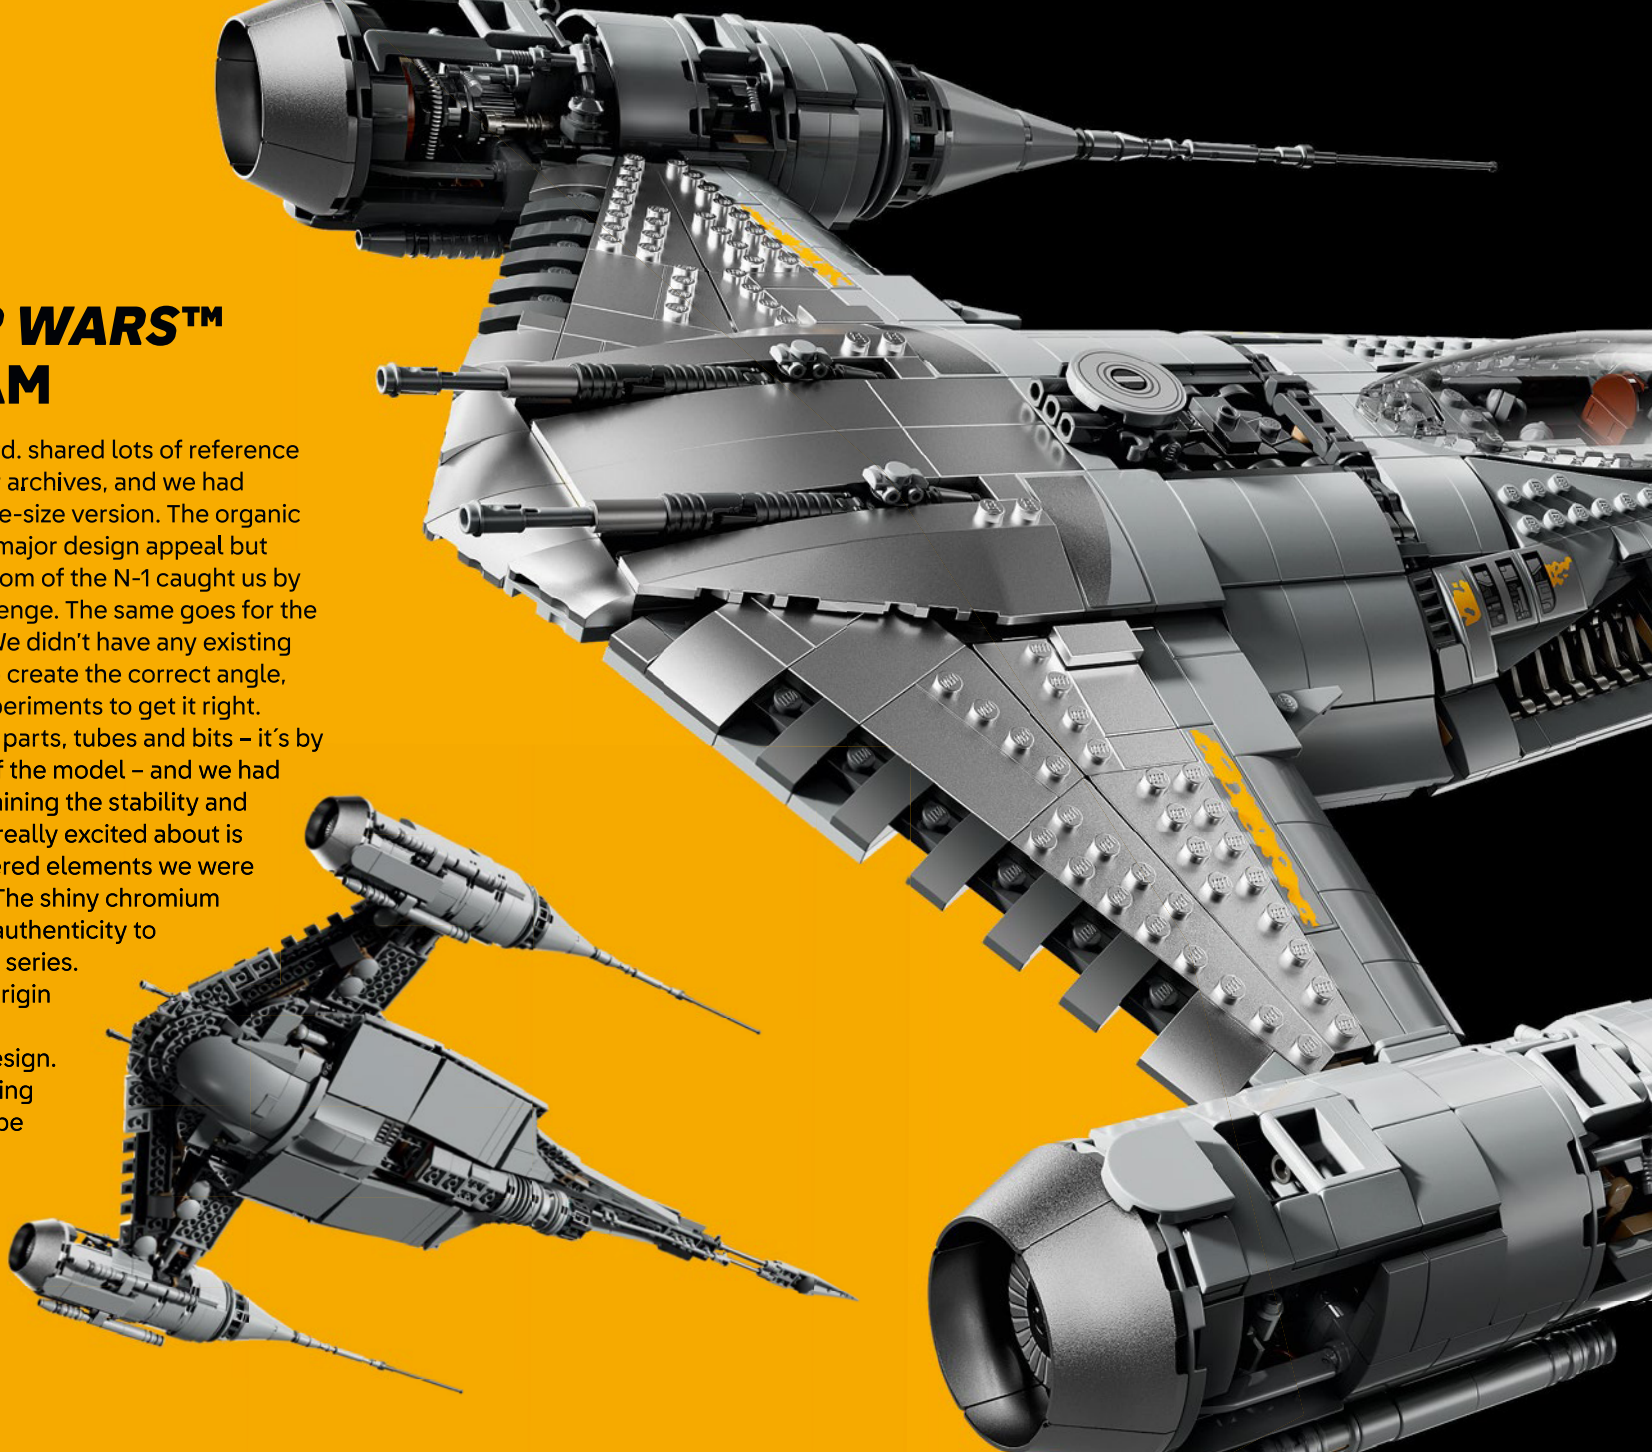

Décadas después de su apogeo original con Anakin Skywalker al mando, la icónica nave espacial encuentra un nuevo piloto. Luego de perder la *Razor Crest*, el Mandaloriano Din Djarin se lanza a la búsqueda de un sucesor digno. Lo primero que ve son los restos destrozados del N-1 en el taller de Peli Motto, llevándose una primera impresión que no era precisamente favorable. Pero luego, los resolutivos Jawas que suministran partes a Motto le consiguen los mejores desechos que el mundo desértico puede ofrecer (sin hacer preguntas, claro está), y la visión de Motto empieza a tomar forma. Equipada con un asimilador de energía turbónico Venturi, un propulsor de combustión criogénico de densidad y un cargador de entrada de inducción, la nave cuenta con un formidable empuje, capacidad de saltar al hiperespacio sin anillo de hiperpropulsión, controles concisos y maniobrabilidad ajustada para el combate contra otras naves.

"Dank farrik, es rápida".

– El Mandaloriano

FROM THE LEGO® STAR WARS™ DESIGN TEAM

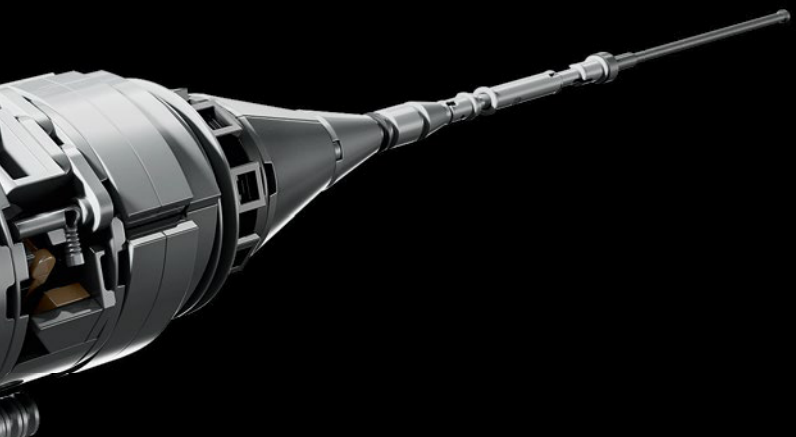

Our partners at Lucasfilm Ltd. shared lots of reference images of the N-1 from their archives, and we had hundreds of pictures of a life-size version. The organic shape of the starship has a major design appeal but recreating the bulbous bottom of the N-1 caught us by surprise – it was a real challenge. The same goes for the subtle angle of the wings. We didn't have any existing elements that allowed us to create the correct angle, so it took some creative experiments to get it right. The engines are full of little parts, tubes and bits – it's by far the most intricate part of the model – and we had to capture that while maintaining the stability and build flow. One thing we're really excited about is the number of drum-lacquered elements we were able to add to the exterior. The shiny chromium look adds an extra layer of authenticity to the model as it's seen in the series. Yellow markings hint at its origin story, balancing the rugged edge-look with the sleek design. Overall, it's such an interesting vehicle and we hope you'll be proud to display it.

UN MOT DE L'ÉQUIPE DE CONCEPTION LEGO® STAR WARS™

Nos partenaires de Lucasfilm Ltd. ont partagé de nombreuses images de référence du N-1 provenant de leurs archives, et nous avons des centaines de photos d'une version grandeur nature. La forme organique du vaisseau a un attrait majeur pour le design, mais recréer le fond bulbeux du N-1 nous a pris par surprise – c'était un véritable défi. Il en va de même pour l'angle subtil des ailes. Nous n'avions pas d'éléments existants qui nous permettaient de créer l'angle correct, il a donc fallu des expériences créatives pour y parvenir. Les moteurs sont pleins de petites pièces, de tubes et de morceaux – c'est de loin la partie la plus complexe du modèle – et nous devons capturer cela tout en maintenant la stabilité et la fluidité de la construction. Nous sommes très heureux du nombre d'éléments laqués au tambour que nous avons pu ajouter à l'extérieur. L'aspect chromé brillant ajoute une couche supplémentaire d'authenticité au modèle tel qu'il apparaît dans la série. Des marques jaunes indiquent son origine, équilibrant l'aspect robuste et le design épuré. Dans l'ensemble, il s'agit d'un véhicule très intéressant, et nous espérons que vous serez fier de l'exposer.

IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO® STAR WARS™

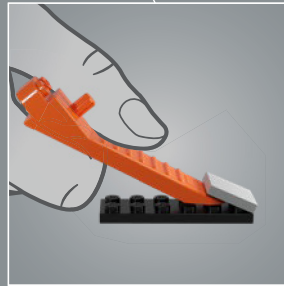

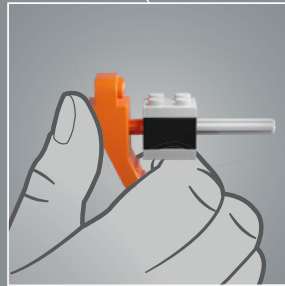

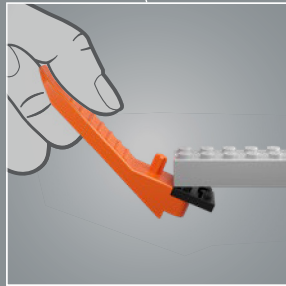

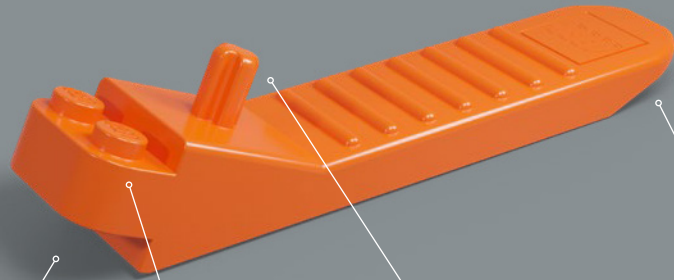

Nuestros colaboradores de Lucasfilm Ltd. nos compartieron muchas imágenes de referencia del N-1 de sus archivos, y nosotros teníamos cientos de fotos de una versión a tamaño real. La forma orgánica de esta nave espacial es muy interesante desde el punto de vista del diseño, pero recrear su redondeada parte inferior fue un gran desafío que nos tomó verdaderamente por sorpresa. Lo mismo sucedió con el sutil ángulo de las alas. Ninguno de los elementos existentes nos permitía recrear el ángulo correcto, por lo que tuvimos que hacer algunos experimentos creativos para que quedara perfecto. Los motores están repletos de piezas, tubos y componentes pequeños; son, por mucho, la parte más compleja del modelo. Además, tuvimos que considerar la estabilidad y el flujo del proceso de construcción a la hora de capturar su estética. Algo que nos entusiasma es la cantidad de elementos lacados en tambor que logramos agregar al exterior. El brillante acabado cromado aporta un toque extra de autenticidad al modelo, haciéndolo verse tal y como aparece en la serie. Además de revelar su origen e historia, las marcas amarillas crean un equilibrio entre la robustez y la elegancia en su aspecto. En general, es un vehículo muy interesante y esperamos que te sientas orgulloso de exhibirlo.
