2019-2026

TOWERS OF JESUS, MARY AND THE EVANGELISTS

✦ The more recent addition of the Sagrada Família's tallest towers marks a major milestone in Gaudí's plan. The Mary Tower was inaugurated in 2021 and rises above the apse to a height of 138 metres (452.7 ft.). The morning star that announces dawn is an ancient symbol associated with Mary, represented here as a luminous star that is visible from much of Barcelona. The four Evangelists' towers were finished between 2022 and 2023 and feature unique sculptures of a man, lion, ox and an eagle. Finally, at the centre, the Jesus Tower marks the basilica's highest point at 172.5 metres (565.9 ft.). This 2026 highlight completes the vertical composition of the basilica and underlines its prominence and place in history.

You are now building subsections of the towers. In real life, these subsections were also prefabricated on the ground and then hoisted into place by crane.

Inside the tower, three levels will be open to the public (at 85 and 143 metres [278.8 and 469.1 ft.], and inside the cross). The four arms of the cross will serve as observation platforms.

2019-

EASTERN SACRISTY

✦ When completed, the Eastern Sacristy will complement its western counterpart and elevate the basilica's harmonious atmosphere. Between the two sacristies, in the centre of the cloister section, behind the apse, is the Chapel of the Assumption, with a square base of 10 metres (32.8 ft.) on each side. Gaudí planned two street-facing entrances to connect the chapel directly to the surrounding city. The design's most prominent element is a 30-metre (98.4-ft.) hyperboloid dome, a complex geometric form that reinforces the symbolic meaning of the dome, while at the same time rising with perfect structural logic and compelling us to look towards the sky.

2025-

GLORY FAÇADE

✦ The Glory façade forms the main entrance of the Sagrada Família, and is oriented towards the Mediterranean. Gaudí left a complete plaster model of this façade, and his collaborators left several written descriptions of the symbolic organisation of all the concepts it encompasses. Using all this material, as well as plan and cross-section sketches, contemporary architects have taken on the task of interpreting his vision, taking into account modern needs and resources. Its design is unconventional and integrates bold structural solutions. Only the semicircular sections of the towers closest to the naves descend to the ground. The remaining semicircular sections 'float' 30 metres (98.4 ft.) above ground level, supported by eight monumental columns that branch out in the style seen inside the naves. Two chapels flank the façade, Penitence and the Sacrament to the east, Baptistry to the west.
