LEGO® Specs

A delightful devourer

Munchlax is almost always on the move looking for something, well, anything, to eat. Eating its own weight in food every day is a full-time job. Thanks to its resilient stomach, it wastes very little time chewing, and it's equally thrilled to dine on gourmet meals, compost scraps and food originally meant for others. Munchlax's thick, layered fur provides ample food storage space, which is super handy in snack emergencies.

It's just that Munchlax often forgets about its hidden fur-stash, at least until the grub begins to emit fragrant surprises and/or take on a life of its own and slide out.

First discovered in the Sinnoh region, this Big Eater Pokémon evolves into the sleepy Snorlax when it bonds with a Trainer.

From the LEGO® Pokémon™ Trainers

This LEGO® Pokémon™ Munchlax is a faithful recreation of the beloved character, as seen in the early video game series. Since Munchlax is known for its voracious appetite, we've added several brick-built items and fun elements to highlight these signature traits. Munchlax has discovered a pile of apples and is happily munching away, and the tree trunk serves as the perfect spot for a snack. Munchlax itself is the most intricate part of the model, and the surrounding scenery is designed with a variety of colours and a number of fun details.

Inspired by the character's love of hiding things in its fur, we've even planted a surprise for you to discover as you build. [It won't smell, we promise!] We hope you enjoy building and displaying it as much as we enjoyed creating it.
