THE MIGHT OF THE EMPIRE

Few Imperial vessels evoke greater dread than Darth Vader's flagship, the monstrous *Executor*. Its predecessors, the original *Imperial*-class Star Destroyers, almost pale in comparison. After Admiral Ozzel's failed attack strategy at the Battle of Hoth, Vader himself takes control of the *Executor* to finish the mission. Although most Rebels manage to escape, their base is left in ruins. During the Battle of Endor, odds once again seem stacked against the Rebels, when the behemoth is finally taken down by a rebel A-wing fighter. The deliverance is cathartic. Over the years, we've added some impressive starships to our LEGO® *Star Wars*™ fleet, including previous versions of the *Executor* – but nothing on this enormous scale.

DOMINATING THE GALAXY

At a whopping 19 km/11.8 mi. long, roughly twelve times the length of the original *Imperial*-class Star Destroyers, Darth Vader's gruesome *Executor*-class Star Dreadnought is a force to be reckoned with. The first of its kind, it's given to Vader, who has the interior refurbished to suit his taste and needs, including a meditation chamber like the one he has on Mustafar. The aggressive, arrow-shaped design emphasises the Empire's domination of the galaxy and backs it up with more than 1,000 weapons. With its massive artillery, combined with TIE fighters, TIE bombers and TIE interceptors, the *Executor* is fully equipped for both space and planet surface battles. Its only – but eventually significant – weakness is the exposed main command bridge.

A detailed LEGO Star Wars model of the Executor, a massive Imperial Star Destroyer. The model is shown from a low angle, emphasizing its scale. The hull is primarily grey and black, with intricate details of the ship's structure, including the bridge, gun turrets, and the complex internal layout visible through the 'light openings'. The ship is set against a dark background with a red gradient at the top and bottom. The text is positioned on the right side of the image.

FROM THE LEGO® STAR WARS™ DESIGN TEAM

One of the most exciting parts of building LEGO® *Star Wars*™ Ultimate Collector Series models is that the large scale allows ample room for intricate details. In the movie model, set designers created 250,000 'light openings' to represent windowpanes and convey the immense size of the *Executor*. We experimented with different techniques to mimic that effect in the LEGO version and ended up creating new decorated windowpane elements that you'll see across the surface. The arrow shape always makes for an interesting and challenging build, and at 136.5 cm/53.6 in., it's the longest official LEGO model to date. From top to bottom, we've added references and authentic elements to keep you engaged throughout the building process, and we hope you'll be excited to display it.

Enjoy building!

FREE TO USE ANY METHODS NECESSARY

Notoriously elusive, these bounty hunters are rarely seen together in public, let alone in LEGO® Star Wars™ sets. For the first time, they're all assembled in minifigure form, summoned here by Darth Vader on the bridge on the *Executor*.

DARTH VADER

As Emperor Palpatine's powerful enforcer, Darth Vader holds the galaxy in an iron grip with unlimited resources at his disposal, from his Imperial troops and fleet to his web of spies and bounty hunters.

DENGAR

Scarred, gruff and unapologetic, Dengar favours brute force and firepower. His battered look reflects a relentless hunter with a substantial ego. Yet his results earn Boba Fett's trust and respect.

IG-88

An independent assassin droid, IG-88 inspires dread far beyond that of any Clone Wars-era battle droid. IG-88's lethal coding drives him to bounty hunting, answering Vader's call to seize the *Millennium Falcon*.

BOBA FETT

A survivor of the Clone Wars, Boba Fett has no qualms about serving as one of Vader's most prolific and ruthless bounty hunters. His heavily modified armour and silent demeanour make him a menacing presence.

BOSSK

Feared Trandoshan hunter Bossk relies on primal instincts rather than politics. Once a partner to Aurra Sing and a young Boba Fett, now he chases credits alone and later rivals Fett while hunting for the *Millennium Falcon*.

4-LOM

Once a protocol droid, 4-LOM has escaped logic programming and embraced bounty hunting. Now rusted in his insectile appearance, he strategically exploits fear of droids in his pursuit of profitable prey.

ZUCKUSS

A methodical Gand bounty hunter, Zuckuss often works with 4-LOM. Silent and disciplined, he joins the hunt to track down the most wanted Rebels in the galaxy.
