WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

FROM THE LEGO® ICONS DESIGN TEAM

If you want to create a LEGO® Icons storytelling experience, rooted in unique architecture and filled with minifigures, the Venetian Neighborhood has it all. Inspired by the city's styles, historical references and iconic Carnival, we've designed a creative interpretation that lets you stroll through the picturesque cityscape. You can separate the terracotta-tiled roofs and peek down the tall ceilings into an apartment furnished in antique luxury. Traditional crafts flourish, and you can find artisanal treasures in the glassware shop. (Watch out for the slippery moss-covered steps!) Across the footbridge, you can explore the old tower, turn its top to face a different direction, and spin the crank to watch the celestial calendar move. And, if you need a little time to take it all in, relax in the shade of the old olive tree. You can even switch the two sections of the model and display it as you prefer. Enjoy your stay!

DE L'ÉQUIPE DE CONCEPTION LEGO® ICONS

Si vous souhaitez créer une expérience narrative LEGO® Icons ancrée dans une architecture unique et remplie de figurines, le quartier vénitien a tout ce qu'il faut. Inspirés par les styles, les références historiques et le carnaval emblématique de la ville, nous avons conçu une interprétation créative qui vous permet de flâner dans le paysage pittoresque de la ville. Vous pouvez séparer les toits en terre cuite et jeter un coup d'œil en bas des hauts plafonds pour pénétrer dans un appartement meublé avec un luxe antique. Les artisanats traditionnels sont florissants, et vous trouverez des trésors dans la boutique de verrerie. (Attention aux marches glissantes couvertes de mousse!) De l'autre côté de la passerelle, vous pouvez explorer l'ancienne tour, tourner son sommet pour faire face à une direction différente, et tourner la manivelle pour observer le mouvement du calendrier céleste. Et si vous avez besoin d'un peu de temps pour tout apprécier, détendez-vous à l'ombre de l'ancien olivier. Vous pouvez même intervertir les deux parties du modèle et l'afficher comme vous le souhaitez. Profitez bien de votre séjour!

IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO® ICONS

Si quieres dar vida a una experiencia narrativa LEGO® Icons basada en una arquitectura única y repleta de minifiguras, el Barrio Veneciano lo tiene todo. Inspirados por los estilos, las referencias históricas y el icónico carnaval de la ciudad, diseñamos una interpretación creativa que te permite pasear por este pintoresco paisaje urbano. Puedes separar los techos con tejas de terracota y asomarte por las altas paredes a un departamento lujosamente amueblado con piezas antiguas. En la tienda de cristalería puedes encontrar auténticas joyas creadas por manos expertas que ponen de manifiesto el florecimiento de la artesanía tradicional. (Cuidado con los escalones cubiertos de musgo, ¡porque son muy resbalosos!) Más allá del puente peatonal, puedes explorar la antigua torre y girar su parte superior para que mire en otra dirección; además, acciona la palanca y verás cómo se mueve el calendario celeste. Si necesitas algo de tiempo para asimilarlo todo, solo relájate a la sombra del antiguo olivo. Incluso puedes intercambiar las dos secciones del modelo y exhibirlo como prefieras. ¡Esperamos que disfrutes tu estancia!

In traditional glassblowing, you blow through a hollow pipe to expand molten glass heated to 2,000 F (1,100 C), then shape the glass over a marver with various tools. (Don't try this at home.)

Dans le verre soufflé traditionnel, vous soufflez dans un tuyau creux pour dilater le verre en fusion chauffé à 1 100 °C (2 000 °F), puis vous façonnez le verre sur un marbre à l'aide de divers outils. N'essayez pas cela chez vous.

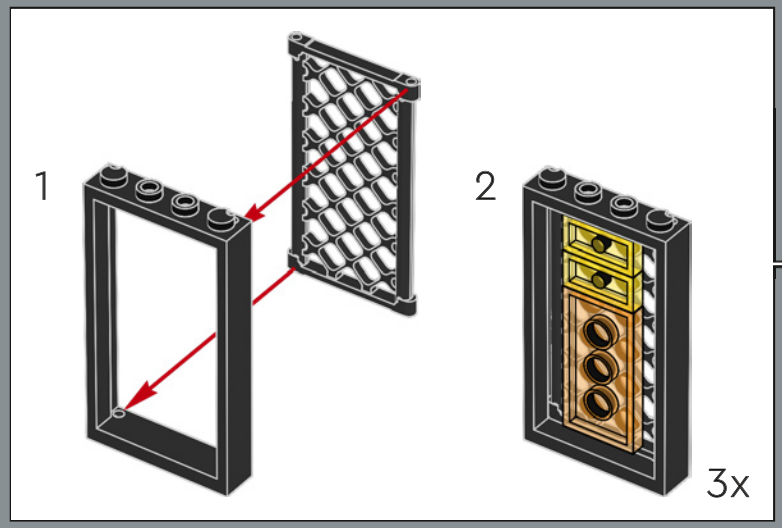

La técnica del vidrio soplado consiste en insuflar aire a través de un tubo hueco para expandir una masa de cristal fundido adherida a su extremo opuesto y calentada a 1100 °C para, posteriormente, darle forma sobre una mesa de trabajo usando diversas herramientas. (No lo intentes en casa).
