

Make a Paper Crown!

Show your best friend how much you care by crafting this paper crown. Ask a grown-up for help and don't forget to decorate it however you like.

You will need:

- A4 or Letter-size paper
- Tape or glue stick
- Scissors (ask a grown-up to help)
- Crayons, markers, coloring pencils
- Items to decorate (optional): stickers, foam shapes, ribbon, yarn and other craft items you might have

1. Print this page
2. Color and decorate your crown as you desire.
3. Carefully cut out the three parts of the crown: The front piece of the crown and two bands (ask a grown-up to help).

4. Attach the bands on both sides of the front piece using tape or glue stick. Overlapping the pieces will make the crown stronger.
5. Place the cut-out crown around your head. The bands of the crown should overlap in the back. Trim the ends to achieve the right length. Tape or glue the ends of the two bands together.
6. Let the glue dry before wearing your crown.
